8	Riya Saha	3rd Sem		22	Srestha Chatterjee	5th Sem
9	Neha Roy	3rd Sem		23	Sisir Ranjan Bhattacharya	Teacher
10	Paromita Saha	3rd Sem		24	Dipankar Mondal	Teacher
11	Sneha Chakraborty	5th Sem		25	Tufan Giri	Teacher
12	Bonita Sinha	5th Sem		26	Tularam Singha	Teacher
13	Nishani Hazra	5th Sem		27	Pompa Shaw	Teacher
14	Rinisha Kar	5th Sem				

- SUMMARY : On 22nd november-,2022 Department of philosophy, City College, Kolkata organized an excursion to the Indian Museum, Park Street, Kolkata, West Bengal for Hons students of Philosophy. There were 22 students accompanied by five faculty members including -Sri, Sisir Ranjan Bhattacharya, Sri Dipankar Mondal, Sri Tufan Giri, Sri, Tularam Singh and Miss-Pampa Shaw. This was in view of the relation between philosophy and the whole of existence, not to speak of the studies in our university curriculum alone. The building itself reminded us of British legacy with a splendid architecture and a fabulous landscaped park right inside the building. The students were enthralled to see the rare collections of antiques, arms, armours, coins, statues, masks, fossils, arts, stuffed animals, tombs and so much more from India, Asia and other parts of the World. Though the presentation of the artefacts is not anywhere near spectacular, the artefacts really are. From rocks and fossils, to art to memorabilia it has just about everything for people to enjoy. The students were spending more time to invertebrate specimens, vertebrate specimens and fossils, skeletons, an exciting human evolution gallery which displays key incidents and timelines of evolution and migration of human in this planet. The purpose of the tour was to expose the students to experience the relation of philosophy to the various processes of human existence , to educate them

about the historical , sociological and psychological perspective of gradual changes in our consciousness . And it was a success on our part as the students were inspired with the fun-filled and informal way of learning, which not only involves beyond the classroom activities but also a location-based learning. The trip had a lasting effect on their minds, educative, informative and all the more historically nourishing.
