## **Seminar Report :**

A state level Seminar on Medical Science in Sanskrit has been organized by the Department of Sanskrit with collaboration of IQAC, City College on 17/01/2024 (Wednesday). The Guest speaker of the seminar was Dr. Basanti Chattopadhyay ,Rtd. Associate Professor , Brahmananda Keshab Chandra College, Kolkata. The seminar has been started at 2.15 PM with lamping the light Sanskrit Mantra has been chanted by the students. Dr. Sital Prasad Chattopadhyay, Principal of City College has given welcome address in the seminar.

Ayurveda: A few words.

Ayurveda is the continuous process of development in the knowledge of the key to man's fitness and disease-free long life.

In Vaisajyasukta of Atharva Veda the way to alleviate many diseases has been mentioned. Gradually the seed of that idea has flourished in the form of a giant tree ie Ayurveda.

The theory of Ayurveda was spread in the mundane level by the disciples of Maharshi Bharadwaj . Ayurveda for the benefit of humanity was first introduced in its full form in the 5th century B.C in the "Charaksanhita"by the doctor Charak. The thorough discussion on different diseases and their cure by Natural and therapeutic or herbal process has been narrated in detail in Charaksanhita.

The legendary doctor Sushrut had brought about a revolution in the field of Surgery. There is a detailed description in Sushrut tantra by Sushrut regarding how some complicated diseases can be quickly healed.

During Bouddhya Yuga there had been significant development and progress in Ayurveda sashtra. Two famous doctors in this era were Jeebak and Nagarjuna.

The eight branches of the Ayurveda sashtra which have been established with full dignity are 1 )Surgery 2) Minor Surgery 3 ) Medicine..4 ) Psychotherapy.,5 ) Pedeatric treatment 6 ) Accidental diseases 7) Preventive Methods 8 ). Sexual invigoration.

All books in Ayurveda have admitted the importance of the Doctor in the field of medical treatment. The essential qualities of a doctor have been specially mentioned everywhere. The first and foremost duty of a Doctor is to serve a sick person. This is equally relevant even today.

Students of Sanskrit Department along with other Department of City College and Faculty members of City College have actively participated in the Seminar. Students were given certificates after the completion of the Seminar .
