SUMMARY: In Addition to syllabus oriented classroom teaching the Department of Zoology is very much concerned about the future Career planning and development of its students. Thus the Department organises both online and offline seminars mostly with final semester students to discuss various openings and opportunities for the transformation of their Graduate knowledge, attitudes and skills in appropriate places. Three teachers emphasised three different angles of such future pathways. Dr Mitra focused on various disciplines of post graduate study where Zoology graduates can be best fitted. Various multidisciplinary Universities and Institutions all over India, Modalities of the entrance Exams, prior preparation for each type of discipline with detail information and respective website links were provided to students. Dr Karmakar emphasised a special and interesting fields, i.e. Wild life and Ecology. He literally taught the students how to Build-up Academic as well as job Career in these subjects, provided all related information to them. Dr Das put attention for both would be Honours and General Graduates who are willing to seek job oriented careers after graduation. He made them aware of different such fields related to Bioscience where irrespective of girls and boys students can get entry. He also provided all information related to the procedure of application and preparation of different competitive exams for getting those jobs. After each presentation students interacted with the speakers for different clarification.
