- **SUMMARY:** Gender sensitization refers to the raising sensitization of gender equality concerns. It helps people in examining their personal attitudes and beliefs and questioning the realities of both sexes. Gender sensitization make people understand the difference between sex and gender, how gender is socially constructed and the stereotypes around gender roles. It helps them determine which assumptions in matters of gender are valid and which are stereotyped. Respected speaker Dr. Saswati Ghosh discussed the need of gender sensitization to create awareness among the participating students.

Human rights are rights we have simply because we exist as human beings - they are not granted by any state. These universal rights are inherent to us all, regardless of nationality, sex, national or ethnic origin, color, religion, language, or any other status. They range from the most fundamental - the right to life - to those that make life worth living, such as the rights to food, education, work, health, and liberty. Respected speaker Mr. Ranjit Shur lucidly explained various aspects of human rights and associated laws to the young students.
